## HEALTHCARE: **THE MOST TARGETED** INDUSTRY BY CYBER CRIMINALS

Every organization that stores or accesses patient data has a legal obligation to protect it. But, what happens when cybercriminals exploit that information? That's when an organization's state of HIPAA compliance goes under the microscope.

We have a variety of healthcare-focused cybersecurity solutions, whether you're looking for a full HIPAA Compliance package that includes a robust cybersecurity training platform, or you're just looking to meet certain HIPAA requirements - we have a solution to fit your needs.

CYBERSECURITY SOLUTION  
WITH HIPAA TRAINING

HIPAA COMPLIANCE  
STAND-ALONE SOLUTION

HIPAA COMPLIANCE &  
CYBERSECURITY SOLUTION

### CYBERSECURITY SOLUTION WITH HIPAA TRAINING

This robust healthcare-focused cybersecurity solution is built to provide clients with ongoing security awareness while addressing healthcare's unique threat landscape. Our cybersecurity solution with HIPAA training, satisfies the annual HIPAA training requirement with Security & Privacy Training and includes dark web monitoring, unlimited simulated phishing, weekly training videos and quizzes, and a monthly security newsletter, all rolled into our Employee Vulnerability Assessment (EVA).

### HIPAA COMPLIANCE STAND-ALONE SOLUTION

This package is designed to provide a comprehensive solution that makes the road to HIPAA compliance a breeze with a HIPAA Security Risk Assessment, HIPAA Policies and Procedures, template documents, and more. This platform does not include any of the ongoing cybersecurity training platform features.

### HIPAA COMPLIANCE & CYBERSECURITY SOLUTION

Our most comprehensive cybersecurity and HIPAA Compliance solution. If you're looking to meet core HIPAA requirements all while improving your organization's cybersecurity stance, this package is for you. Our HIPAA Compliance & Cybersecurity Solution combines all the great features of the Cybersecurity Solution with HIPAA Training AND all of our HIPAA Compliance Stand-Alone Solution services.
